Address: Łódź Photographic Society, 90-004 Łódź,
ul. Piotrkowska 102. Poland.

Additional information: e-mail: ltf@ltf.com.pl

The 20th edition of the photography competition "Power of Łódź"

-is an anniversary invitation to rediscover a city that is constantly changing, inspiring, and surprising. Łódź is a space of contrasts: the monumental historical architecture of the 19th and early 20th centuries (factories, palaces, tenement houses) creates a unique urban complex on a global scale, the backbone of our city's identity, but also intimate courtyards, the history of industry and the new energy of modernity, the everyday lives of its residents, and exceptional moments captured in image.

It is these diverse facets of the city that have for years constituted its true strength.

Since its first edition, the "Power of Łódź" competition has encouraged a close look and personal interpretation of urban reality. We are looking for photographs that not only document but also tell a story—about place, time, and the emotions embedded between history and the present. We are interested in both the city's grandeur and the small, seemingly insignificant details that conceal its everyday poetics. We invite all photography enthusiasts—both professionals and amateurs, regardless of age or experience—to participate. The most interesting works will be presented at a post-competition exhibition, and their authors will receive awards from the jury.

Show us Łódź through your eyes. Share your perspective and the story captured in the frame. We look forward to seeing your photos.
